Infrastructure

We take pride in having a state-of-the-art infrastructure well equipped with the warehousing facility, which helps us to store manufactured goods and raw materials in abundance. The machines bear the latest technologies aids in meeting the requirements and finishing the voluminous consignments in the scheduled time frame. The machines that adhere to the international standards enable us in producing best quality materials that has claimed the appreciation of millions worldwide. Moreover we have an in-house designing unit and a CAD/CAM facility that enables us in the better designing of the army accessories, army clothing accessories and woolen accessories.

Team

Team plays a significant role in any business organization. We have an efficient workforce who work in close harmony. Each and every member of our organization are dedicated towards their work and always try to meet the requirements of the clients. It is their efficiency that helps in the completion of the consignments in time. We also have a team of marketing executives who closely monitor the market. They are the ones who directly deal with the customers and keep record and documentations. Our market executives have a sound knowledge about the market and this enables us in the fruitful production of the required materials for army uniform accessories. Our teams of quality controllers strictly check each and every material with utmost care and honesty. During the entire production phase they undergo stringent quality checks so as to ensure that the materials are of the best quality before being outsourced in the market.
